

Wi-Fi Friendly EP-Series Plastic Enclosures

Application

Wavenet's 15" & 30" Plastic Wi-Fi Friendly Enclosures are an ideal solution to consolidate and distribute wired and wireless home networks from a single, centralized location.

These enclosures are designed to be installed in single family homes, apartments, condominiums, multi-dwelling units (MDUs), and retrofit or custom homes.

Constructed from strong ABS plastic, these enclosures are designed to integrate wired and wireless devices into traditional structured wiring installations with no signal loss.

The 15" & 30" Plastic Wi-Fi Friendly Enclosures allow the full reach of a wireless network, as opposed to standard metal enclosures that can limit the range of the wireless signal.

Wi-Fi Friendly EP-Series Plastic Enclosures

Features

1. UL-rated ABS plastic
2. Surface or Flush Mounting
3. Horizontal & Vertical mounting hole patterns
4. Door hidden vent holes
5. Hinged door with trim ring
6. Reversible door
7. Lockable
8. Top & Bottom Knockouts for cable entry & exit
