24-Port 1U Category 6A 110-Type Patch Panel

Product Detail

Application

Overview

Category 6A "CAT6A" 2U 24-Port, 110-Type UTP, 10G Patch Panel is component compliant to ANSI/TIA Category 6A connecting hardware requirements. The horizontal 110-Type insulation displacement connectors (IDCs) are designed to provide optimum permanent and channel link performance and help reduces potential Alien Crosstalk (ANXT) with adjacent UTP cables. The jack ports and 110-IDC punch down are grouped in six-port modules for quick and easy labeling and maintenance.

Features

- 24-Port, 1U racks, brackets and cabinets mountable
- 110-Type IDC accepts UTP wire gauge 22-24 AWG
- Universal T568A/B wiring
- Includes rear cable management bar
- Hinged windows style w/ white labels
- Meet and exceeds ANSI/TIA-568-C requirements
- UL listed

Standards Compliance

- UL Listed
- ANSI/TIA-568-C
- RoHS

Package Includes

- 24-Port CAT6A, 1U Patch Panel, 1 PC.
- Rear Cable Management Bar, 1 PC.
- Mounting Screw, 8 PCS.
- 3" Nylon Cable Ties, 24 PCS.
- Installation Instructions
