

WC SERIES™ CABINETS

6U, 9U, 12U, 15U AND 18U OPTIONS

The Wavenet WC Series™ Double Section Swing Out Cabinets are ideal for intermediate distribution frame (IDF) locations, including server rooms, audio/video/security applications, manufacturing areas, warehouses, where remote networking equipment needs to be securely stored and protected

WC Series[™] Cabinets Specifications

Front View Features

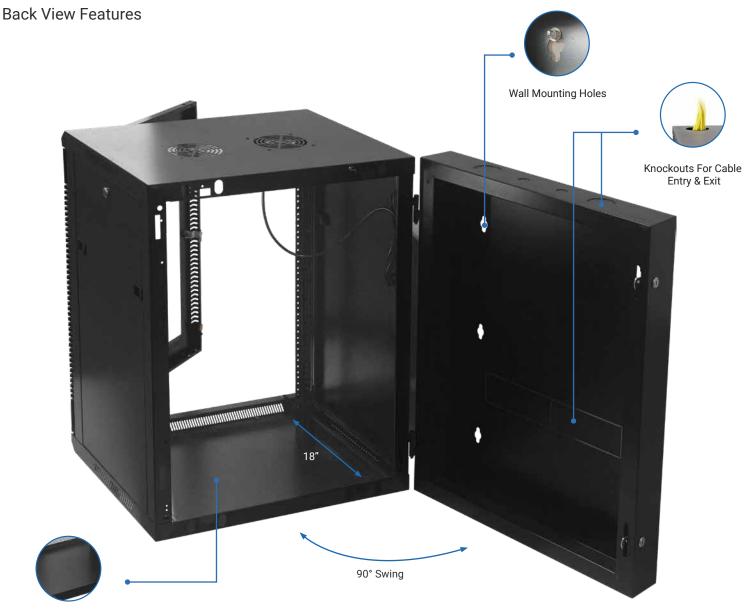

KEY FEATURES

- » Cable entry & exit on top/bottom knockouts
- » Lockable front, rear door & side panels
- » Reversible front door for right or left-handed use
- » Integrated grounding point for maximum protection
- » Number markings on rails with adjustable depth
- » Tempered glass shatter resistance door
- » (1) 50CFM fan with one extra empty slot for additional fan
- » 24" Depth with 18" usable, (2 sets) of 16" on center mount
- » Ship fully assembled to save time

18" Usuable Depth Bottom Panel

Easy Access Front to Back

Our WC Series™ Cabinets feature a versatile swing door design with welded hinges that enables up to 90° Swing Out, ensuring effortless for rear access to equipment and streamlined cable management. With a usable depth of 18″, these cabinets can accommodate most standard equipments while providing ample space for efficient network organization

WC Series™ Cabinets Sizes

6U/9U/12U/15U and 18U Variations

6U CABINET CBTF-WM6U

- » Secure storage solutions for ICT equipments
- » Suitable for small-to-medium-sized network applications
- » Easy to install, secure and convenient access
- » Load up to 70 lbs.

Width	Height	Depth	Usuable Depth	Load Capacity	Rails #
23.6"	14.6"	23.6"	18"	70 lbs.	#12-24 or #10-32

9U CABINET CBTF-WM9U

- » Secure storage solutions for ICT equipments
- » Suitable for small-to-medium-sized network applications
- » Easy to install, secure and convenient access
- » Load up to **75 lbs**.

Width	Height	Depth	Usuable Depth	Load Capacity	Rails #
23.6"	19.8"	23.6"	18"	75 lbs.	#12-24 or #10-32

12U CABINET CBTF-WM12U

- » Secure storage solutions for ICT equipments
- » Suitable for small-to-medium-sized network applications
- » Easy to install, secure and convenient access
- » Load up to 80 lbs.

Width	Height	Depth	Usuable Depth	Load Capacity	Rails #
23.6"	25.0"	23.6"	18"	80 lbs.	#12-24 or #10-32

SUITABLE for network closets, classrooms, and other remote locations

FULL COMPLIANCE with ANSI/EIA/IEC standard network requirements

COST-EFFECTIVE solution compared to floor-standing racks or server cabinets

15U CABINET CBTF-WM15U

- » Secure storage solutions for ICT equipments
- » Suitable for small-to-medium-sized network applications
- » Easy to install, secure and convenient access
- » Load up to 90 lbs.

Width	Height	Depth	Usuable Depth	Load Capacity	Rails #
23.6"	30.3"	23.6"	18"	90 lbs.	#12-24 or #10-32

18U CABINET CBTF-WM18U

- » Secure storage solutions for ICT equipments
- » Suitable for small-to-medium-sized network applications
- » Easy to install, secure and convenient access
- » Load up to 100 lbs.

Width	Height	Depth	Usuable Depth	Load Capacity	Rails #
23.6"	35.6"	23.6"	18"	100 lbs.	#12-24 or #10-32

Applications for Network Configurations

WC-Series™ Cabinet Installation Display

The WC Series™ Cabinets are fully compatible with consolidating low-voltage wiring solutions, suitable for IDA/IDF locations where floor space is limited

#12-24 Rails

#10-32 Rails

MOUNTING RAIL OPTIONS

Each cabinet comes with 2 internal adjustable rails (#10-32 or #12-24) for depth management depending on your project installation requirements

REMOVABLE SIDE PANELS

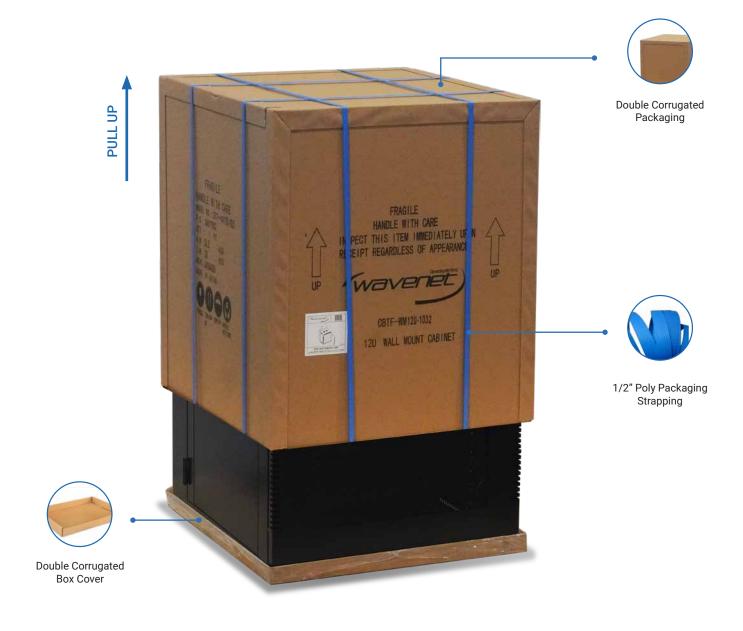

» Side panels can be easily detached from the cabinet, allow easy access to equipments from the left and right side

ROBUST VENTILATIONS

» The cabinet features a ventilation system with multiple airflow patterns, ensuring optimal air circulation

Standard Packaging and Securement

Durable & Reliable Protection

The WC Series™ Cabinets are packaged in a heavy-duty box, protecting against external damage to ensure product quality. The packaging features an easy slide-up method, eliminating the need for cutting and reducing messy workspace, saving both time and effort

WELDED HEAVY-DUTY FRAME

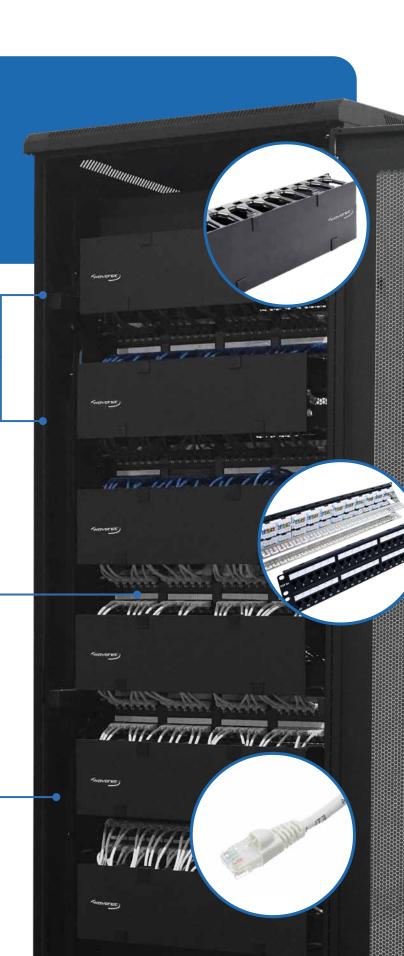

» The unit is constructed from heavy-duty cold-rolled steel with a black powder-coated finish, ensuring exceptional durability and the strength to support high-density builds

HIGH-DENSITY APPLICATIONS

» Ideal for high-density network applications, compatible with all standard 19" equipment, including servers, patch panels, PDUs, and more, ensuring seamless integration and versatility

ADJUSTABLE MOUNTING RAIL

» Feature #12-24 or M6 cage nut threaded holes with number markings, adjustable depth for an easy and flexible installation that meets your project requirements

Standard Packaging and Securement

Safe, Secure and Compact

The FC Series™ Cabinet comes fully assembled, including pre-installed casters, eliminating the need for installation upon arrival. Securely wrapped on all sides and strategically positioned within the packaging to prevent damage and movement during transit
